

2nd Biennial Australian Implementation Conference

Sheraton on the Park, Sydney, Australia | 17 & 18 September 2014

2014 Program Overview

Conference Themes

- Theories and models of implementation science
- Systems and structures to support high quality implementation
- Fidelity, Adaptation and Scale up
- Building capacity for effective implementation
- Methods, measures and tools for evaluating implementation processes.
- Implementation-informed policy planning, development, delivery and evaluation.

Visit these pages for the **Oral** and **Poster** Presentations. PowerPoints will also be available post-conference. **Download Preliminary Program**
